

PE Lesson:

OUTDOOR & ADVENTUROUS: THE BLUE EGG

Each player places a marker down on the edge of a space known as their nest

Can you keep running and score as many points as possible?

- In the centre of the space place objects. All blue items are worth 2 points. Everything else is worth 1 point
- Players collect one object from the middle and then return it to their nest
- Players should keep going until there are no more objects left

The winner is the player with the most points at the end of the game.

Can you play fairly and keep the score?

Top Tips!

Work Hard

The faster you move, working hard to keep going the more points you will score.

Lets Reflect

Did you try and get all the blue objects first?

If you did not win what could you change for next time?
